

Musical Subtraction Statues!

This week we have been practising our subtraction skills.

Can you show your families what you have learnt by completing the activities below?

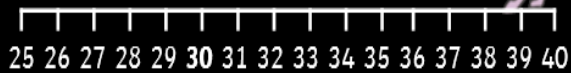

Subtract 1 Digit from 2 Digits

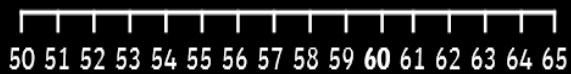

Show Jump Back Jill how she could subtract on these number lines. Remember to land on a multiple of 10 first.

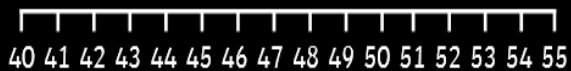

$37 - 9$

$63 - 6$

$54 - 7$

$81 - 5$

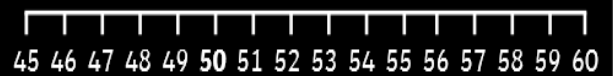

Subtract 1 Digit from 2 Digits

Investigate which digits are missing from this calculation:

$5 \square - \square = 48$

Use a number line to help you.

How many different combinations can you find?
