

L.O I can mix colours.

What are the three primary colours?

What happens when we mix the primary colours?  
Which secondary colours do we create?

Your turn!

Experiment with mixing the different primary colours. Which secondary colours do you make? Does it make a difference which whether you are using paint, pastels or pencils. Can you try all three if you have them?

You can use the colour wheel to guide you. There is also a more challenging one to extend your creativity. What will happen if you mix two primary colours in different quantities?

Have fun experimenting with colour!
