

# Wider Curriculum

Week 5

## DT

An important part of our DT curriculum is being able to evaluate our designs. Spend some time to review and reflect on your potion box design. What went well and what would you change if you did it again? Were you able to practise your DT skill of measuring and cutting accurately?

## Music

Now you have had a chance to listen to a piece of music inspired by Harry Potter it is over to you to make your own piece of magical music. If you have any instruments at home you could use them, or if you are feeling creative, you could even make your own. An instrument we all have is our voice so if you don't have access to anything else just sing! Think carefully about what sort of piece you want to create, will it sound happy or sad, or even a bit of both? How will you show that you have been inspired by the magical world of Harry Potter? We would love to see some of your performances of your masterpieces so please send in any videos to Padlet or our email. Get composing!

**BRIDGE**  
This theme is considered the "main theme" of Harry Potter, and is heard from the 3:30 mark in the introduction to the opening title "All I Wish" from the film.

## Art

The paintings in Harry Potter are truly magical! This is your chance to create your own piece of magical art. Perhaps it will have eye holes so it looks like it can move or maybe you can make it on a concertina so that it looks like two different pictures depending on the angle you look at it? The choice is yours, we can't wait to see what you can come up with.

It is Mental Health week this week. Make sure you are taking time to look after yourselves and do activities that you enjoy. Taking a walk and spending some time completing mindfulness exercises are all good ways to look after your mental health.
