

# Year 2 Maths Tuesday 21st April 2020

## Snail Shapes!

LO: To be able to describe and compare 2D shapes using their properties.

How did you get on yesterday Detectives?

We hope you managed to spot lots of 2D shapes around your home and hide them safely in your home learning book!

Today, we would like you to describe and compare the 2D shapes you have found by using their properties.

Have a look at these resources to help you learn all about properties:

<https://www.twinkl.co.uk/resource/t-n-1098-2d-shapes-properties-poster>

<https://www.twinkl.co.uk/resource/t-n-926-what-am-i-2d-shape-properties-powerpoint>

<https://www.bbc.co.uk/bitesize/clips/zhnvcdm>

### Square

Can you add this new information to your poster from yesterday?

For an extra challenge, can you use the words 'sides' and 'vertices' in your descriptions?

Now you know their properties, how can you compare the shapes?

Squares have:

- 4 sides;
- 4 vertices;
- all angles and sides equal.
