

Ladybird Learning

w/b 11th October 2021

This week, in our learning we have...

- Become bakers! We followed instructions to make bread rolls, just like 'The Little Red Hen' in the story we shared in our story telling sessions.
- Discovered 'Body Percussion', exploring sounds we can make using our body, for example clapping, clicking fingers and stamping our feet. We tried hard to follow a rhythm although some of us found this really tricky!

- Compared objects by size, mass and capacity in our maths sessions. We have matched the 3 Bears to their chairs by comparing the sizes of each. We had fun discovering how many scoops of water were needed to fill up different sized containers and we are beginning to use mathematical words such as 'heavier' and 'lighter' when comparing objects with the balance pans.

Home Challenge

WOW!

We hope you had fun making your 'Metal Mike' robot. It is a useful resource that you can use time and time again.

This week we would like to introduce you to our 'Wow!' cards. Every term we like to invite all the grown-ups at home to share with us something special your child has done recently that has made you "Wow!"

You may have begun to notice that your child is showing greater independence when reading or spotted that they are now using their letter sounds to write, for example they may have helped you to write a shopping list. Perhaps they are showing more confidence in particular activities eg swimming or cycling. Maybe they have learned to tie their shoe laces or have solved problems using their developing mathematical skills.

Whatever it is, we would love to hear about it. Please fill in the Wow! card to explain exactly what your child has done to impress you. We will add the card to their books and put a copy on display.

If at any time throughout the term you would like another Wow! card please don't hesitate to ask as we are happy to send home as many as you would like.

(Alternatively feel free to print off the wow cards attached below.)
