

Year 1 Maths Home Learning 26.11.21

This week, we have learnt new vocabulary of greater than and less than. We have also learnt how to use the symbols $<$ $>$ and $=$ to show our number sentence. Can you complete the below number sentences showing whether the numbers are greater than, less than or equal to?

You may want to use cubes to explain the use of the symbols 'greater than', 'less than' and 'equal to'. For example,

$$1 < 3$$

$$2 = 2$$

$$3 > 1$$

Symbols for Comparing

Use the symbols $<$, $>$ or $=$ to compare these objects.

Symbols for Comparing

Alex has used symbols to compare these objects. Is he correct?

Explain your answer in a full sentence.

What could go in the box?

Is there more than one possible answer?

Can you find all the possible answers?
