

Year 1 Maths Home Learning

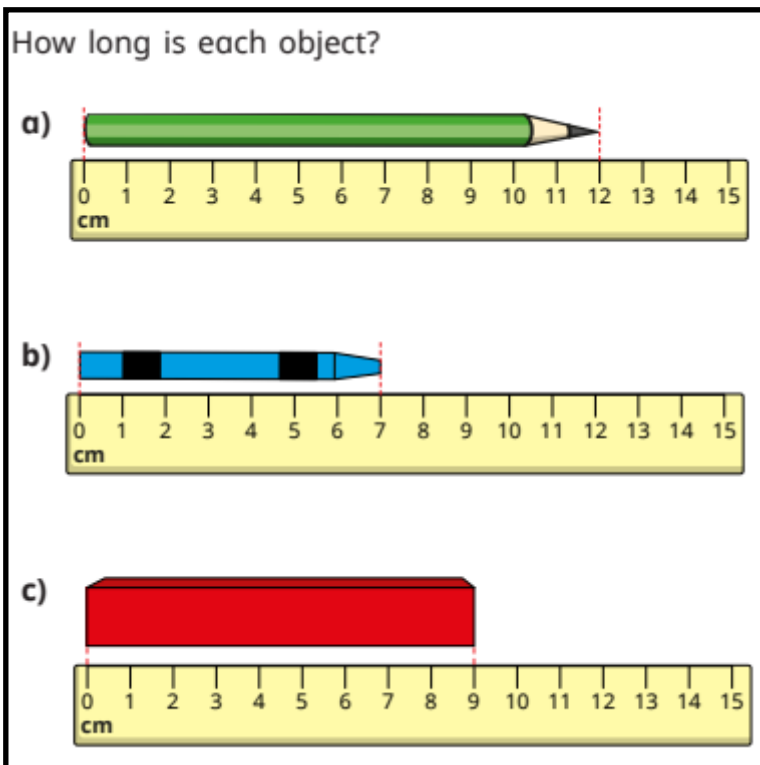

This week we have been measuring length and height. We have been using cubes and Lego bricks to measure objects and impressing everybody with our vocabulary including longest and shortest, tallest and smallest. We have also learnt how to use a ruler to measure in centimetres, which we have found very exciting!

long longer longest
centimetres

Can you find some objects around the house to measure with Lego or Duplo blocks?

Don't forget to make sure they are all the same size!

Now can you try using a ruler to measure items at home? We can't wait to hear what you found out next week!
