

# Year 1 Maths Home Learning Challenge

Friday 3rd November 2023

This week we have been exploring fact families and number bonds. We have learned strategies to help us find all the number bonds for a given number for example...

Finding  
number  
bonds of  
5

$$0 + 5 = 5$$

$$1 + 4 = 5$$

$$2 + 3 = 5$$

$$3 + 2 = 5$$

$$4 + 1 = 5$$

$$5 + 0 = 5$$

Activity 1:

Draw lines to  
match the pairs  
of fish that  
make 6.

Activity 2:

Tick the number  
sentences that  
show number  
bonds of 7.

$$7 + 0$$

$$4 + 4$$

$$2 + 5$$

$$6 + 1$$

$$3 + 6$$

### Activity 3:

Can you find all the number bonds of 8?

Think! How will you make sure you don't miss any number bonds out?

You could make yourself some double-sided counters or why not colour in the counters below to find all the ways to make 8!

Finally, we have enjoyed playing some of the following games in our maths fluency sessions this week.
