

One of the things we have been learning about is 1 more and 1 less and 10 more and 10 less. See how quickly you can solve these problems. Can you do them mentally? What strategies are you using?

$1 \text{ more than } 23 =$

$1 \text{ less than } 42 =$

$1 \text{ more than } 54 =$

$1 \text{ less than } 61 =$

$1 \text{ more than } 86 =$

$1 \text{ less than } 72 =$

$1 \text{ more than } 14 =$

$1 \text{ less than } 39 =$

$10 \text{ more than } 20 =$

$10 \text{ less than } 30 =$

$10 \text{ more than } 40 =$

$10 \text{ less than } 40 =$

$10 \text{ more than } 50 =$

$10 \text{ less than } 70 =$

$10 \text{ more than } 80 =$

$10 \text{ less than } 100 =$

$10 \text{ more than } 36 =$

$10 \text{ less than } 45 =$

$10 \text{ more than } 24 =$

$10 \text{ less than } 67 =$

$10 \text{ more than } 39 =$

$10 \text{ less than } 84 =$

$10 \text{ more than } 68 =$

$10 \text{ less than } 92 =$

Now for the challenge. Write some of your own 10 more and 10 less number sentences. For example $12 + 10 = 22$, $45 - 10 = 35$
