

Year 1 Maths Home Learning Challenge

Friday 7th November 2025

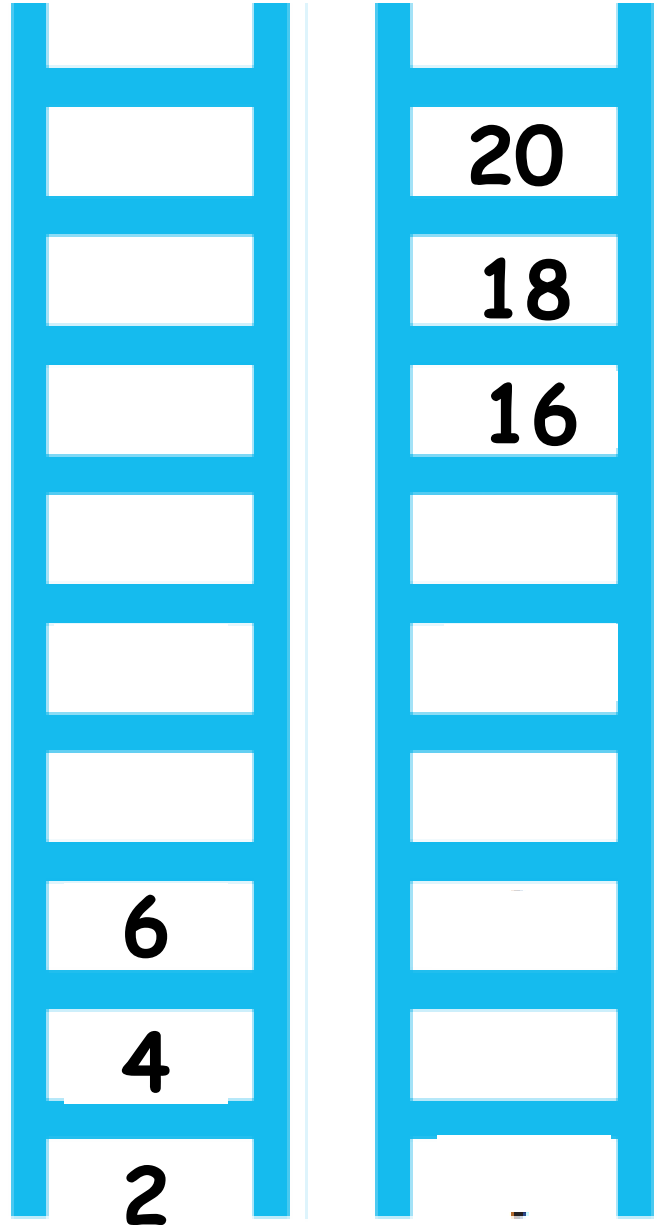

This week, take time to practise some of our Maths Fluency skills. Try the following activities counting forwards and back in steps of 2.

Activity 1:

Can you help the builders climb up and down the ladders by counting in 2s?

When counting in 2s, all the numbers will be...

Odd or Even?

Activity 2:

Draw around the feet of everyone in your house.

Can you count in 2s to show how many feet altogether?

Activity 3:

Count in steps of 2 to find the total number of wheels.

What number comes next?

Check whether to count **forwards** or **backwards**.

2 4 6 8 10 12

10 8 6 20 18 16

Why not play the Duck Shoot game from ict-games to help you count in steps of 2? Select 'count in 2s' from the menu. You will see a target number displayed eg 12. You will also see a starting number on the first duck.

Count along the row of ducks in steps of 2 until you get to the duck that matches the target number. Then click!
