

Year 1 Maths Home Learning Challenge

Friday 28th November 2025

This week, we have completed our Power Maths unit of 'Addition and Subtraction within 10'. To finish the unit, we have put our knowledge of addition and subtraction to the test in solving some word problems.

For each problem below, think carefully about what is happening. Do you think we will need to add or subtract? Can you explain why?

Now write a number sentence to show what is happening and record the answer. Use the example as a guide. Good luck!

Sammy the giraffe has 5 spots. Timmy the giraffe has 6 spots. How many spots are there in total?

$$5 + 6 = 11$$

"The question was asking me to find the total so I knew I had to add."

Jim had 8 sweets. Lee gave him 4 more. How many sweets has Jim got now?

There were 7 stars in space. An alien spaceship zapped 3 away!
How many stars were left?

Liz had 11 slices of pizza.
She ate 5 slices. How many
does she have left now?

Toby catches 9 mice. 4 of
the mice escape. How many
does Toby have now?

Tom had 13 cars. Jen gave
him 4 more. How many cars
has he got now?

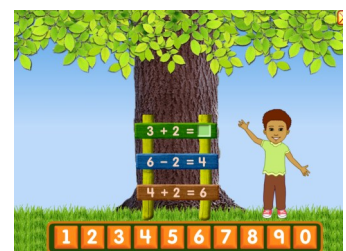

Why not try out these addition and subtraction games online. Please remember internet safety...always have a grown up with you when you go online. They are from TopMarks.
