

Year 1 Maths Home Learning Challenge

Friday 23rd January 2026

This week, to complement our work on numbers to 20, why not try out these money activities.

Activity 1:

Money Match Up

Look carefully at the value of each coin. Find the total of each set. Can you use your knowledge of teen numbers being "10 and a bit" to help you work out each total quickly?

12p

15p

16p

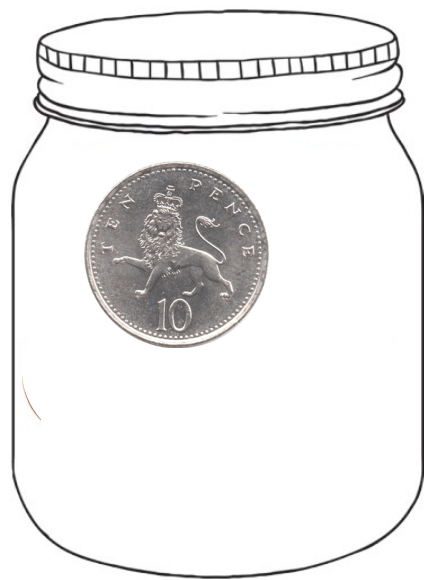

13p

Activity 2:

Add one more coin to each jar to match the total.

11p

20p

Activity 3:

Draw some coins in the piggy bank to make the amount shown.

Which coins will you use?

1p

2p

5p

Can you find other ways to make the same amount?

Here are some online money games you may want to explore...

Toy shop money game on Topmarks.co.uk

<https://www.topmarks.co.uk/money/toy-shop-money>

Select 'mixed coins' and 'up to 20' then find the coins needed to pay for each item.

Pay For It on ictgames

<https://ictgames.com/mobilePage/payForIt/index.html>

Scan each item then select the coins to pay for it.

Internet Safety: Only go online with a grown-up

Why not continue the learning by going shopping for real (or set up a shop at home). Can you find the coins to pay for your items?

For an extra challenge...What is the fewest number of coins you would need to pay for your items?
