

Year 1 Maths Home Learning Challenge

Friday 30th January 2026

This week we have been using our number bond knowledge to 10 to help us add numbers quickly. We have also been using our number bond knowledge of 10 to help us identify number bonds of 20. Have a go at the following activities...

Activity 1:

Solve these addition sentences using your knowledge of number bonds...

$$3 + 2 = 5 \quad \text{so I know} \quad 13 + 2 = 15$$

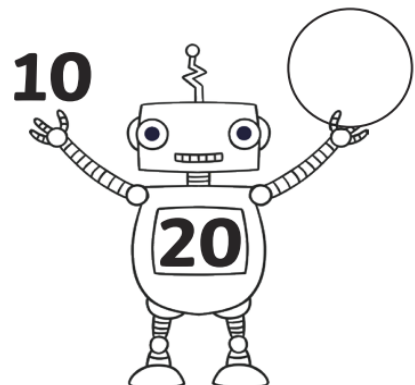

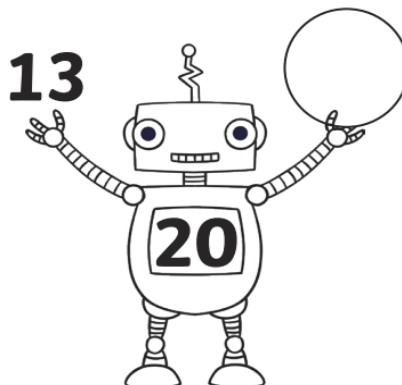

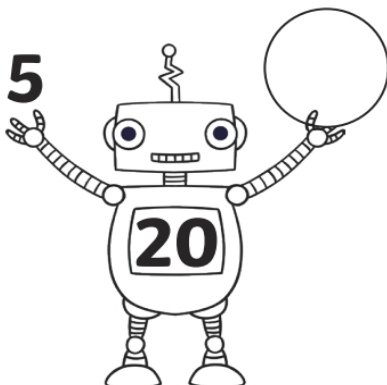

$$4 + 3 = 7 \quad \text{so I know} \quad 14 + 3 = \square$$

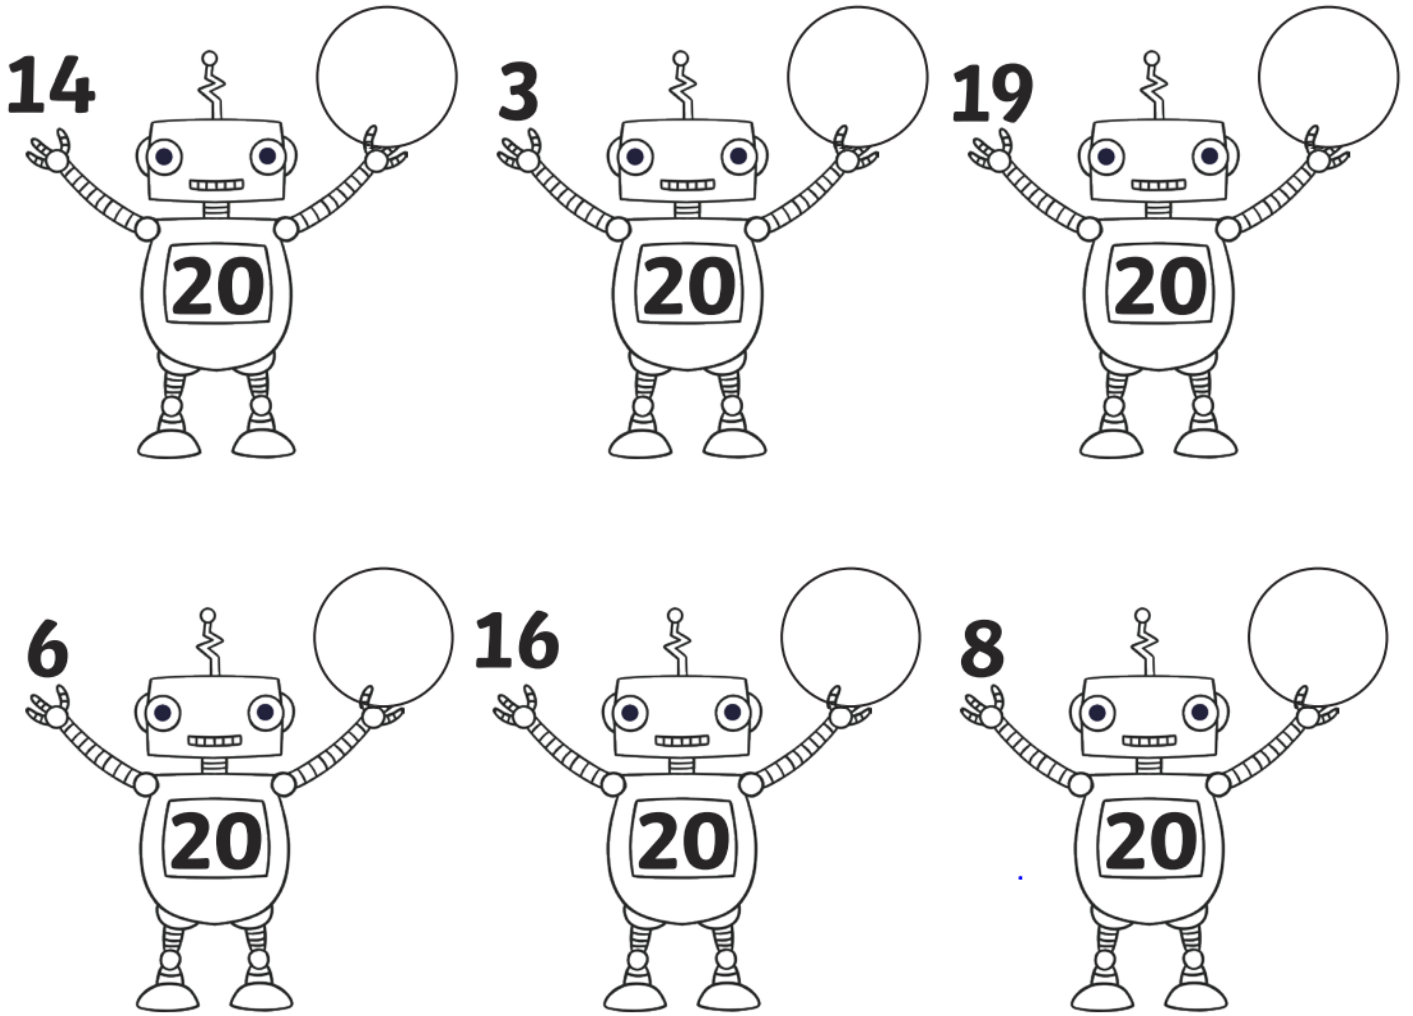

$$8 + 1 = \square \quad \text{so I know} \quad 18 + 1 = \square$$

$$5 + 3 = \square \quad \text{so I know} \quad 15 + 3 = \square$$

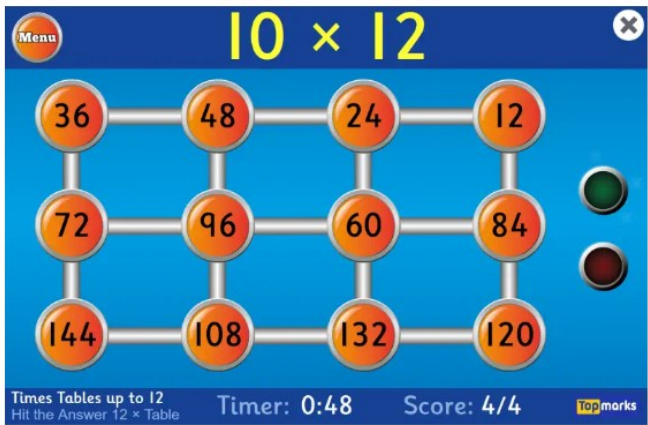

Activity 2:

Can you find the number bonds of 20...

Activity 3:

Continue to practise your number bond knowledge with the ‘Hit the Button’ game from Topmarks.

<https://www.topmarks.co.uk/maths-games/hit-the-button>

In this game you can choose to find number bonds of 10 or number bonds of 20. Try both.

Internet safety: always have a grown-up with you when you go online.
